

# With You Always

## The Afters

Just another lonely night inside these walls  
Hearing the tears that fall and echo through the halls  
In that moment, all alone  
When my strength is nearly gone  
And it feels like it's the end  
I can hear you say again

I am with you  
I am with you always  
You don't have to be afraid  
I'll be comfort through the pain  
I am with you  
I am with you always  
Know that I'll be right beside you  
Even on the hardest days  
I'm with you always

I have everything I thought I wanted in this life  
And from the outside everything is looking fine  
But on the inside, crying out  
Feels like no one hears me make a sound  
But you hear me when I pray  
Through the silence I hear you say

I am with you  
I am with you always  
You don't have to be afraid  
I'll be comfort through the pain  
I am with you  
I am with you always  
Know that I'll be right beside you  
Even on the hardest days  
I'm with you always

For every moment of your life  
For every smile and tear you cry  
Even when your heart will break  
When it feels like more than you can take  
Through every single sleepless night  
And every battle that you fight.  
From now until the end of time  
I am with you

I am with you  
I am with you always  
You don't have to be afraid  
I'll be comfort through the pain  
I am with you  
I am with you always  
Know that I'll be right beside you  
Even on the hardest days  
I'm with you always
