

Don't Wreck It

The Age Of Electric

I could swear, I'm no smarter than a squirrel
Feel safe asleep inside the violent squeals
It's the way, the milky system turns
In the fourth dimension, hiding three more meals
Your creator cowers in the corner in my head
This won't wreck me, this can't affect me
Please don't wreck it, I feel fine
Fine, fine yeah, fine, fine
You said it was creepy, how we loved so instant
You never grew up with trust, we just grew into dysfunction
Sister grabbed my neck and said
I know how to kill, breathe shallow
What soul's bugging you?, need to fill every blank
Please won't wreck me, please don't affect
Please won't wreck me, I feel fine
Fine, fine yeah, fine, fine
Please won't wreck me, please don't wreck it for me
Please don't wreck me, please don't wreck me
Please don't, please don't, please don't wreck me
I don't have much time left
