

Disconnect Me

The Agonist

You!
Pull me out and plug me in
Light the brain
Start me up
Automatic we're bound
We wind up like clocks

Assimilation of perfection
My flesh and bone exists no more
Viral program in me

Am I just your creation?
Terminate this operation
Taking back the chance to feel alive

Disconnect me from the dream
You infused with reality (release me)
Cut the cord that defines you

Memories are fading
My life's disintegrating

Initiate the procedure to transform my body
Into a greater form to serve your gain
Access the brain to eliminate
The source that constrains us to be humane

Am I just your creation?
Terminate this operation
Taking back the chance to feel alive

Disconnect me from the dream
You infused with reality (release me)
Cut the cord that defines you

Disconnect us from your dream
Bleeding out the circuitry
You've got to cut the cord
Cut the cord and wake up!

Memories are fading
My life's disintegrating
