Let Me Go Home

The Alan Parsons Project

Waiting till the sun goes down Shadows walk in the night Living in a fantasy In and out of dreams Nothing is the way it seems

Let me go home, I had a bad night leave me along Let me go home, I've had a hard time being on my own

Every way I turn my eyes Shadows pass in the night Haunted by reality Living out of dreams Nothing is the way it seems

Let me go home, I've had a bad night leave me along Let me go home, I've had a hard time being on my own

I'm waiting till the sun goes down Shadows talk in the night Living out a fantasy Slipping into dreams Nothing is the way it seems

Let me go home, I've had a bad night leave me along Let me go home, I've had a hard time being on my own
