

## What Goes Up...

The Alan Parsons Project

What goes up must come down.  
What must rise must fall...  
And what goes on in your life  
Is writing on the wall!  
If all things must fall,  
Why build a miracle at all?  
If all things must pass,  
Even a miracle won't last.  
What goes up must come down.  
What must stand alone?  
And what goes on in your mind  
Is turning into stone!  
If all things must fall  
Why build a miracle at all?  
If all things must pass,  
Even a pyramid won't last...

How can you be so sure?  
How do you know what the end will endure?  
How can you be so sure  
That the wonders you've made in your life  
Will be seen  
By the millions who'll follow to visit the site  
Of your dream?

What goes up must come down...  
What goes 'round must come 'round...  
What's been lost must be found...
