

# Falling From The Sun

The Album Leaf

If the sky is burning, when the clouds move in  
We come so close, when we just miss  
We can't see the start, we can't hide the end

Find our way to fall  
Find our way to fall  
Find our way to fall  
Find our way to fall

I can't see between, I can't find the need  
We come so close, when we just miss

Find our way to fall

We can't see the start, we can't hide the end  
When the sky is burning, if the clouds move in

Find our way to fall  
Find our way to fall  
Find our way is  
Find our way  
Find our way to fall

We can't see the start, we can't hide the end  
When the sky is burning, if the clouds move in

Find our way to fall  
Find our way to fall  
Find our way is  
Find our way  
Find our way to fall

And here we are, locked together  
And here we are, falling from the sun  
And here we are, locked together

Find our way is  
Find our way  
Find our way to fall
