

Eyelash Wishes

The All-american Rejects

Spin round
Tell me what to say
Break down
And no other way

What is it
Is this it
This is it

Back to
I never knew your name
Stick through
Soon after the rain

She shines
How she shines
This is it

And shadows blend one last time
(save those kisses)
Your picture speaks on this time
(eyelash wishes)

Cause I've been up 3 day
Awake Awake
2 more weeks
And I'm turning to fade

The world still turns
What makes sense
Stretch this song to a fever cadence

Up 3 days
Awake Awake
2 more weeks
And I'm turning to fade

And all things close
All I wish
Never change these distances

Green eyes
Everything I see
Green skies
If left up to me

And I know
And she knows
This is it

And shadows blend one last time
(save those kisses)
Your picture speaks on this time
(eyelash wishes)

Cause I've been up 3 day
Awake Awake

2 more weeks
And I'm turning to fade

The world still turns
What makes sense
Stretch this song to a fever cadence

Up 3 days
Awake Awake
2 more weeks
And I'm turning to fade

All things close
All I wish
Never change these distances

Just be brave
Just listen to me
Your heart gives mine reason to beat
Now

Cause I've been up 3 day
Awake Awake
2 more weeks
And I'm turning to fade

The world still turns
What makes sense
Stretch this song to a fever cadence

Up 3 days
Awake Awake
2 more weeks
And I'm turning to fade

All things close
All I wish
Never change these distances

And shadows blend one last time
(save those kisses)
Your picture speaks on this time
