## **Eyelash Wishes**

## The All-american Rejects

Spin round Tell me what to say Break down And no other way What is it Is this it This is it Back to I never knew your name Stick through Soon after the rain She shines How she shines This is it And shadows blend one last time (save those kisses) Your picture speaks on this time (eyelash wishes) Cause I've been up 3 day Awake Awake 2 more weeks And I'm turning to fade The world still turns What makes sense Stretch this song to a fever cadence Up 3 days Awake Awake 2 more weeks And I'm turning to fade And all things close All I wish Never change these distances Green eyes Everything I see Green skies If left up to me And I know And she knows This is it And shadows blend one last time (save those kisses) Your picture speaks on this time (eyelash wishes) Cause I've been up 3 day Awake Awake

2 more weeks And I'm turning to fade The world still turns What makes sense Stretch this song to a fever cadence Up 3 days Awake Awake 2 more weeks And I'm turning to fade All things close All I wish Never change these distances Just be brave Just listen to me Your heart gives mine reason to beat Now Cause I've been up 3 day Awake Awake 2 more weeks And I'm turning to fade The world still turns What makes sense Stretch this song to a fever cadence Up 3 days Awake Awake 2 more weeks And I'm turning to fade All things close All I wish Never change these distances And shadows blend one last time (save those kisses) Your picture speaks on this time (eyelash wishes)
