

(Oh, oh)

I'll never forget when we started out
The beat of the drum, a face in crowd
It's better this way, it's better this way
How far we've come now not a soul can change

Remember the road running under our feet
We'd shoot for the stars but we'd aim at the trees
It's better this way, it's better this way
Gambling with life it was our turn to play

It's time
Oh, we move before it can you see the climb
We bought the ticket so we'll take the ride

Every trial and every test
We drive to the east and we fly to the west
Just running away, just running away
We can be different 'cause they're all the same

Every night we'd ever start
Every beat of every heart
Is running away, just running away
Catching our breath at the end we can say

It's time
Only when you look forward can you see behind
Every taste we can get was just sweet sublime
Holding onto the moment we let go of life
We bought the ticket so we'll take the ride

Damn, condemn the light
One moment in the dark
A stand that was the sketch
A fall that wasn't hard
We lost ourselves to find
Somewhere down the line
It's time

Damn, condemn the light
One moment in the dark
A stand that was the sketch
A fall that wasn't hard
We lost ourselves to find
Somewhere down the line
It's time

For some it's a god, for me it's a fact
We make a mistake and try to take them all back
It's better this way, it's better this way
Out of the grind and in to the grave

It's time
Only when you look forward can you see behind
Every taste we can get was just sweet sublime
Holding onto the moment we let go of life

We bought the ticket so we'll take the ride

We bought the ticket so we'll take the ride
