

Feed the Need

The Almighty

Look at all the brand new people
Feeling bitter everyday
Reality bites the hands that feed
From the government take away
Sick responses to a sick system
So you've heard it all a million times
Putting profits before the people
In a police state of mind
Just to...
[Chorus]
Feed the need
When are you going to give
Feed the need
We want something better than this
Feed the need
When are you going to give
Feed the need
We want something better than this
A little freedoms a dangerous thing
But dreamings cheaper than TV
Instant glory just add money
Be all your not supposed to be
The more we want the less we get
Twisting in our skins
The coca cola death toll is rising
And there's no disguising that it's the real thing
[Chorus]
Ease the conscience look the other way
Coz everything's alright forever
Natural born liars and radical devices
Try to fool us altogether
Killing for the company all trying to live
Somewhere that doesn't exist
Run yourself into the ground
Coz that's the way uh huh uh huh they like it
[Chorus]
