

How Real is Real for You

The Almighty

Let's get this situation sorted out
Coz everybody's an authority
An independent state of mind is one thing
If you define your own reality
You say that we both want the same thing
Well you don't mind if I go on changing
[Chorus]
How real is real for you?
How real is real for you?
I've got to get some exploitation
Just to prove I'm all over you
Revolution starts in the mirror
Expectations are so hard to see thru
So tell me something that I don't know
Now you've run out of things to control
[Chorus]
Take away that meaning
Destroy before feeling
