

(Warwick)

Loaded in the boulevard of broken dreams

White lightning soul serene

Can't seem to find my way

No I don't have the time

'cos I don't know the day

What you see is what you get

These things I do I don't regret

Chorus

Gettin' loaded

Every fuckin' time

Getting loaded

Loaded down

Under my skin like a rose tattoo

This rose ain't red, man, this bitch is blue

From no mean city down to bullshit town

Going round in the underground

Outta sight and outta mind

I can't see that love is blind

Chorus

I'm just a crazy mixed up little kid

I never meant to do the things I did

Please believe me when I lie to you

I'm so far gone my soul's black and blue

Well I'm a hit and run problem child

I'm halfway to hell and still alive

Everything's free if you got the money

You can keep the milk I'll take the honey

What you see is what you get

These things I do I don't regret

Outta sight and outta mind

I can't see that love is blind

Chorus
