

Poison Eyes

The Almighty

Don't get useless on me
Don't get useless on me
There was a time when I knew what to say
But now the words just kinda drift away
Everyday you build yourself a higher wall
Now I can't understand why you won't understand at all
Don't get useless on me
Don't get useless on me
Everybody's got their alibis
Everybody's got those poison eyes
Everybody's got to learn to take a fall
Now I can't understand why you won't understand at all
Don't get useless on me
Don't get useless on me
You couldn't know what I want
You couldn't know what I want
You couldn't know what I want
You used to love what you now burn
You used to love what you now burn
You used to love watch you now burning friends
You couldn't know what I want
You couldn't know what I want
You couldn't know what I want
Don't get useless on me
You couldn't know what I want
Don't get useless on me
You couldn't know what I want
Don't get useless on me
Don't get useless on me
Don't get useless on me
Don't get useless on me
Don't get useless on me
