The Unreal Thing

The Almighty

```
Warwick
You're the unreal thing
in the safety of your own delusions
You preach it but you don't believe it
I never wanted to be what you needed
What gives
What gives you the right
picking up the pieces
until you get the rest of my life
(chorus)
Backbiter
You're the unreal thing
So have a toke and a smile
and ease your junkfood mind
who needs entertainment
when the walls are here to climb
I knew
I knew it would come to this
I've been hanging on for weeks
by the skin of my beliefs
so come on and cut me down
you're just a...
(chorus)
I'm not afraid of being wrong
I'm just scared of being right
(chorus)
Backbiter
You're the unreal thing
You can't beat the feeling
```
