Drive There Now!

The Almost

Winter days make me say What the hey Let's say what we needed to say

Since way back when we sailed our inhibitions Hold on tight 'cause this is so the truth This is so the truth

I love the way that we laugh until we cry Dance until we die I love the smile with which you look at me and say Get ready for this, Aaron, get ready for this

I hope this gets you harder I hope you act so much stronger

And I imagined honestly It gets you every time That I want it to honestly And think you're strong

I love the way that we laugh until we cry Dance until we die I love the smile with which you look at me and say Get ready for this, Aaron, get ready for this

I want you to remember me When they tell you this is so insane, so insane

I love the way that we laugh until we cry Dance until we die I love the smile with which you look at me and say Get ready for this, Aaron, get ready for this
