

## Out West

## The Almost

Good times are in front of us  
You can come if you want  
There's nothing in this ugly town  
Anymore, anyway

Oh the dust is getting thick  
I got a can of gas and twenty one dollars  
That says we'll make it where we're going  
They won't find out where we're going

What I'm not from are demons  
Yea they won't be scary enough  
They can't catch us  
Call our bluff  
They can't catch us  
Call our bluff

Let's head out west  
We'll do our best  
We'll try and drive  
I swear to God that we'll survive  
We'll make a mess  
Going from town to town  
Just making plans  
It's just you and me  
Let's head out west

This is too much for them to know  
They'll take our freedom if they know  
Let's run as fast as we can  
Let's run as fast as we can  
Twenty one dollars runs out quick  
So say a little prayer for us  
We just need  
A little prayer for us  
Hold on  
Here that train comes

Let's head out west  
We'll do our best  
We'll try and drive  
I swear to God that we'll survive  
We'll make a mess  
Going from town to town  
Just making plans  
It's just you and me  
Let's head out west

The money's all gone  
Hope is gone but  
Life is showing  
Good times are in front of us

Let's head out west  
We'll do our best  
We'll try and drive  
I swear to God that we'll survive

We'll make a mess  
Going from town to town  
Just making plans  
It's just you and me  
Let's head out west

Let's head out west  
We'll do our best  
We'll try and drive  
I swear to God that we'll survive  
We'll make a mess  
Going from town to town  
Just making plans  
It's just you and me  
Let's head out west
