

## Southern Weather

### The Almost

If my faults are your song  
Then I will not be content to sing along  
If I'm the one that's making you so out of touch  
Then why don't you just go ahead and...  
Why don't you just go ahead and

Blame it on this southern weather  
Blame it on anything  
It's not like you to ask small favors  
You can blame me for everything

If I'm the cause of all your sickness and pain  
Then I'll bury my face in the all of dirty shame...  
If this is just what's getting you so out of touch  
Then why don't you just go ahead and...  
Why don't you just go ahead and (go ahead and)

Blame it on this southern weather  
Blame it on anything  
It's not like you to ask small favors  
You can blame me for everything

This is my last plan to  
bury all of your charms  
This is my final rush  
to reach for you

Blame it on this southern weather  
Blame it on anything  
It's not like you to ask small favors  
You can blame me for everything  
(you can blame me for everything)

Blame it on this southern weather  
Blame it on anything  
It's not like you to ask small favors  
You can blame me for everything  
You can blame me, blame me  
You can blame me, blame me
