

## The Florida Sun

The Almost

There's a beach by my house  
I used to drive on out  
Sit in my car, just to get away  
The salt in the air  
Gets stuck in your hair.  
Man, it takes your breath away.

Oh, way back when I had a dream  
I'd see the world from center stage  
I'd live life fast and be someone  
But somewhere in the in-between  
I lost myself, let go of me  
It all just changed

All the songs that I sung  
All the hearts I thought I won  
After everything I've done  
I wanna go back, back to the Florida sun

It was all a part of me  
Sugary sand, every single palm tree  
It was knit into my skin  
I traded it all for a dirty road that  
Put a damper on my soul  
I just wanna go home

All the songs that I sung  
All the hearts I thought I won  
After everything I've done  
I wanna go back, back to the Florida sun

Oh, and You make all things new  
Oh, and You make all things new  
Oh, and You make all things new  
Oh, and You make all things new

All the songs that I sung  
All the hearts I thought I won  
After everything I've done  
I wanna go back, back to the Florida sun

I just wanna go back  
I just wanna go back to the Florida sun  
To the Florida sun
