

## Weather Report

### The American Analog Set

I haven't seen a comb now for days  
It's indie on the radio waves  
The girls will get reports on the hour  
From boys on the catwalk by the tower  
Don't worry now, the kids at the record shop  
Will show you how

The cool's moving out and moving in  
Moving in and moving out  
Moving out and moving in
