

# Shine On

## The Amity Affliction

(Lifts us up)  
Let me hear you sing it!  
(Lifts us up)  
So when the last light fades,

Shine on.  
Shine on young love.  
You hold my hands,  
and I'll hold yours,  
then life won't feel so wrong.

I know you're hurting like I am,  
I know your heart's in your hands.  
We share a life so bleak,  
with broken memories.

Shine on (shine on).  
Shine on young love.  
You lit the fires in my heart  
and I won't give that up.  
So shine on (shine on),  
Shine on young love.  
You know we're all sinking together,  
but this lifts us up.

(Lifts us up)  
Let me hear you sing it  
(Lifts us up)  
So let the last light fade

Shine on  
Shine on young love  
We'll burn these fires bright  
lets blaze our past into the night.

Because it's been too long,  
and we have been too down.  
So now it's sink or swim,  
and we're too strong to drown.

Shine on (shine on)  
shine on young love.  
You lit the fires in my heart,  
and I won't give that up.  
So shine on (shine on)  
shine on young love.  
You know we're all sinking together,  
but this lifts us up.

I've felt as helpless as you,  
felt the will to give in.  
Let your heart open up,  
let the healing begin.  
Find your way to the light,  
and fight the will to give in.

It's sink or swim,

and we're too strong to drown.  
It's sink or swim,  
and we're too strong to drown.

We'll take our time,  
and make a change.  
this is our chance to sail away.  
We'll take our time,  
and make a change.  
this is our chance,  
so let the last light fade.

Shine on (shine on)  
Shine on young love.  
You lit the fires in my heart,  
and I won't give that up.  
So shine on (shine on)  
shine on young love.  
You know we're all sinking together,  
but this lifts us up.

Shine on (shine on)  
(Lifts us up)  
You lit the fires in my heart,  
and I won't give that up.  
So shine on (shine on)  
(Lifts us up)  
You know we're all sinking together,  
but this lifts us up.
