

You always seem to think the worst  
That everyone is out to screw your plans  
Go on and help yourself first  
I've had about as much as I can stand  
Now I'm sayin' you sold out

Yeah, I'm sayin' you sold out  
What made you so cynical?

Help me get my head into  
The way the world has weakened you  
If you want  
I think you're being paranoid

You really know just how to f\*\*k what's good  
I hope you listen to my voice  
Don't wanna be misunderstood  
Now I'm sayin' you sold out

Yeah, I'm sayin'  
What made you so cynical?

Help me get my head into  
The way the world has weakened you  
If you want, if you want  
What made you so cynical?

Help me get my head into  
The way the world has weakened you  
If you want

Help me get my head into  
The way the world has weakened you  
If you want
