

Back Street Pick Up

The Angels

Welcome back, good to see you again
heart attack, honey where you been
You went away, y' never told me where
baby what can I say, never thought I'd care
Queen of the night you got a heart of stone
now that you're back I can't leave you alone
Back street pick up
Back street pick up
honey where have you been
good to see you again
Saw your face, in a magazine
silk and lace, honey you're obscene
Queen of the night you got a heart of stone
now that you're back I can't leave you alone
Back street pick up
Back street pick up
honey where have you been
good to see you again
You hooked me in, then you raised the price
some call it sin, I call it paradise
