

# Face The Day

The Angels

I don't wanna face the day  
I don't wanna face the day  
I don't wanna face the day, the day, today

Long night leaves me stranded  
Black vision, danger sign  
No love, need protection  
Feels like I'm on production line  
Daggers of dawn, cold hearted day  
Why does it have to be morning?  
Cover my head, stayin' in bed  
Too late, the luckless warning

I don't wanna face the day, the day, today  
I don't wanna face the day, the day, today

Outside, screaming city  
Red lights and hungry eyes  
Sucks like a space invader  
The vacuum of it's lies  
Stealing my strength, stealing my time  
It's raining in a world of traders  
I don't wanna face the day  
I don't wanna face the day

Let me keep on sleeping  
Forget that I'm alone  
One day of faceless living  
Is 24 hours too long

I don't wanna face the day  
I don't wanna face the day  
I don't wanna face the day, the day, today

Give me the night, it's more forgiving  
Hold back the light from my eyes  
Please stay invisible darkness  
Can't see the tears I cry  
I know it's coming loaded with nothing  
Trapped in a tunnel of time  
I don't wanna face the day  
I don't wanna face the day

I don't wanna face the day, the day, today  
I don't wanna face the day, the day, today

I don't wanna face the day  
Face the day  
I don't wanna face the day  
Don't wanna face the day  
Ohh, face the day  
Don't wanna face the day  
Don't wanna face the day  
Don't wanna face the day
