

## High And Dry

The Angels

Fire gets fire, you know that I am burning up  
you want it all, lover's liar  
but it's too late now to make a new start  
night stalker, dirty talker  
leave me with a losing hand  
You got me high & dry  
you shake me up then you take me for a ride  
you got me high & dry  
you showed me how to play & then you lit the fire  
you got me high & dry  
I beg you to come clean, you push me round with loving sin  
living in a daydream, pick me up and I lose again  
Night stalker, dirty talker  
leave me with a losing hand  
You got me high & dry  
you shake me up then you take me for a ride  
you got me high & dry  
you showed me how to play & then you lit the fire  
you got me high & dry
