

No Sleep In Hell

The Angels

Hotshot, still not listening
It's all in his head
Flying high sights on sunset
Crashed instead
You take the first, now take the rest,
Before you leave
Couldn't be too easy, what you say

No sleep in hell
Another star is felled
Try another pill
Too many profits with time to kill

No time a soldier of fortune
From who's heard?
Speech come, heart beats a warning
No one heard
Nights filled with sawdust sleeper
White and red
It's a dangerous game is what you said

No sleep in hell
Another star is felled
Try another pill
Wake up wake up
No sleep in hell
Another star is felled
Try another pill
Too many profits and time to kill

Hotshot, still not listening
It's all in his head
Flying high sights on sunset
Crashed instead
Nights filled with sawdust sleeper
White and red
If the dangerous game is what you said

No sleep in hell
Another star is felled
Try another pill
Wake up wake up
No sleep in hell
Another star is felled
Try another pill
Too many profits and time to kill

No time no time
No sleep in hell
Another star is felled
Try another pill
No sleep in hell
Too many profits and time to kill
