

## I've Been Around

The Animals

I've been around the world, it's true  
Searchin' for someone exactly like you  
I finally found a love that's true

You heard story, you heard just what I said  
The one that I love she might as well be dead  
Finally found a love that's true, oh, oh, oh, oh

You heard my story you know how I feel  
You got me spinnin', like a spinnin' wheel  
And finally found a love that true

I've been around the world, it's true  
Searchin' for someone exactly like you  
And finally found a love that's true  
And finally found a love that's true
