

## Dangerous

The Anix

It seemed the other day  
I met and had you  
So new and the way you looked at me  
I fell apart at the first sight  
I don't how I felt before you  
I saw you dancing into the music  
I know you're dangerous in a good way  
I felt it when we touch  
Over and over  
You're my everything  
Novocain to numb me  
I know it's right  
It's meant to be  
Love surrounds me  
Hard to see  
All the days we spent alone  
The rhythm in the action leads the way  
Every time that I'm right here with you  
I come alive just to see you this way  
It's difficult not to want you  
Every time you put your arms around me
