

Enemy Eyes

The Anix

I want to wake up from this nightmare
I cant seem to escape
No way to exit I keep searching
But there must be a way

Frozen upside down
I'll wait for you to cut me down
Well take your time
My strings, no chance to come undone

I want to catch you now
Never throw away
You've got the enemies eyes
So you run
And you hide, patiently you scream
But can't escape

I see behind your eyes
I know the road that I must take
No way to hide
You're just a victim of your own mistakes

Frozen upside down
I'll wait for you to cut me down
Well take your time
My strings, no chance to come undone

I want to catch you now
Never throw away
You've got the enemies eyes
So you run
And you hide, patiently you scream
But can't escape

I fall through
To bitterness
Never fall
Won't come back the same

And I want to catch you now
Never throw away
You've got the enemies eyes
So you run
And you hide
Patiently you scream
But can't escape.

And I want to catch you now
Never throw away
You've got the enemies eyes
So you run
And you hide
Patiently you scream
But can't escape.
