

Flattened

The Anix

I'm chasing after you
I can't become the time for now
Everywhere you are
(Lose me when you are in me after this)
The sound of your voice
The feeling is in me here
Is wrong, it should be right
And nothing tears me further from you

Can you wait here?
Walk away from me
Can you save me one more time?
Can you wait here?
Falling over me
Can you leave me one more time?

Where have you go?
I need to feel you next to me
Everywhere you are
Makes me want to leave

Can you wait here?
Walk away from me
Can you save me one more time?
Can you wait here?
Falling over me
Can you leave me one more time?

Can you wait here?
Walk away from me
Can you save me one more time?
Can you wait here?
Falling over me
Can you leave me one more time?

(Can you wait here?) (4x)
