If Humans Had No Voice

The Anix

Changing ways and giving in
See what they have started
A bruise you see it's a lie in me
Everything we fought for
Broken hearts still ask for more
Addiction leads me through the door
Falling fast into my head
(Only if humans had no voice)

It's lonely when you've come undone
I'm crawling to find you, anyways
Another wasted love is gone
I hope to find you, someday

Only if humans had no voice
Wish that things would stay the same

Changing ways and giving in
See what they have started
A bruise you see it's a lie in me
Everything we fought for
Broken hearts still ask for more
Addiction leads me through the door
Falling fast into my head
(Only if humans had no voice)

It's lonely when you've come undone
I'm crawling to find you, anyways
Another wasted love is gone
I hope to find you, someday

Only if humans had no voice (3x)

Only if humans had…
Wish that humans had…
Only if humans had no voice…
