

It's Not the Same

The Anix

Look back on what you've done to us The one's above you Some new, some real kind of fun Trying hard to figure My world has come undone today Pushing me further and further away It's not the same when you think I'm losing It's not the same when you walk away (Walk away...)

(It's such a shame when you walk away)

It's not the same when you leave me It's not the same when I'm left here without you Can you tell that I see you? Can I take you back here with me?
