

Sleepwalker

The Anix

Wide awake, in the dark
Not alone here, the shadows talk
In my world, i create
My memories, to keep my faith

Unconsciously, I rise above the night
Lost control, I'm reaching for you
Paralyzed, I fight to save my life
I'm half asleep
I cant relate or contend with you

I changed, for you
I tried, to find myself
In my world, it's blue
I'm contagious
Infected with gravity

Unconsciously, I rise above the night
Lost control, I'm reaching for you
Paralyzed, I fight to save my life
I'm half asleep,
I can't relate or contend with you

(you can run, but you wont get away)
(repeated)

It's too late
I'm paralyzed inside
If you wait
It's bound to find you too

Unconsciously, I rise above the night
Lost control, I'm reaching for you
Paralyzed, I fight to save my life
I'm half asleep,
I cant relate or contend with you

I'm sleepwalk, sleepwalk,
Sleepwalker... (4x)
