

The Ghost of Me and You

The Anix

I don't know the way i feel can't hide the things i know behind
the broken wheel crashing everywhere i go out on the other side
with nowhere else to go we are suicide but now i know

the ghost of me and you is always haunting I can't believe the
things you said to set me free the ghost is inside me

lie awake at night they crawl inside my head can't seem to win
this fight holding onto what you said can't hide the way i feel
or all the times i miss no way to help me heal I'm on my own

the ghost of me and you is always haunting I can't believe the
things you said to set me free the ghost is inside me (overlapping
the chorus beginning) the ghost of me and you is always haunting
I can't believe the things you said to set me free the ghost
is inside me

I can't survive one look at you compels me

the ghost of me and you is always haunting I can't believe the
things you said to set me free the ghost is inside me (overlapping
the chorus beginning) the ghost of me and you is always haunting
I can't believe the things you said to set me free the ghost
is inside me
