

The Passenger

The Anix

A black hole is living inside of me
Can't hide it, it's everywhere I see
Some people see it through my skin
Spreading again, it's spreading again

Is it you
Is it me
I can't live
I can't breathe
And we're living in this darkness together
I'm not alone I know that theres another one
A passenger inside that never lets me down
Holding on to you and losing gravity
It makes me feel alright

A black hole has lived inside of me
I can't fight it, it's taking over me
Some people feel it through my touch
Spreading again, it's spreading again

Is it you
Is it me
I can't live
I can't breathe
And we're living in this darkness together
I'm not alone I know that theres another one
A passenger inside that never lets me down
Holding on to you and losing gravity
It makes me feel alright

I'm not alone I know that theres another one
A passenger inside that never lets me down
Holding on to you and losing gravity
It makes me feel alright

Is it you
Is it me
I can't live
I can't breathe
And we're living in this darkness together
I'm not alone I know that theres another one
A passenger inside that never lets me down
Holding on to you and losing gravity
It makes me feel alright

I'm not alone I know that theres another one
A passenger inside that never lets me down
Holding on to you and losing gravity
It makes me feel alright

I'm not alone I know that theres another one
A passenger inside that never lets me down
Holding on to you and losing gravity
It makes me feel alright
