

# Hold Me Tonight

## The Anniversary

Have I taken you for granted?  
But I know what matters most to you  
In slow motion as you walk on by  
Pictures of you forever in my mind

Hold me tonight (tonight, tonight)  
Hole me tonight (tonight, tonight)  
Tomorrow keeps bringing you down and I'm still right here  
Follow me to the end of the sea

Looking out for new ideas  
I thought that sometimes dreams come true  
When to everyone who's always been there  
I'm giving this to you

Hold me tonight (tonight, tonight)  
Hole me tonight (tonight, tonight)  
Tomorrow keeps bringing you down and I'm still right here  
Follow me to the end of the sea

Time is the secret so know as they fall onto you  
My hands reach out and into nothing (but your big turning eyes?  
)  
I saw her tonight standing outside - I said too much  
One of you screamed my name and I care without anything else  
You said - I heard what you said - I loved what you said when y  
ou said it to me  
You sing - singing that song - when the back seat's singing my  
mind

Hold me tonight (tonight, tonight)  
Hole me tonight (tonight, tonight)  
Hold me tonight (tonight, tonight)  
Hole me tonight, tonight, tonight!
