

Low Tide And Hospital Bed

The Anniversary

How are the nights there? How do you sleep?
Cause I figured you'd have me inside a week

The tide is on fire - The minnows all breathe
And my timing is all wrong - throwing fits so mean
Let the angel sing - the strongest ship retreats
Fold your wings and live again

Let the angel sing - the strongest ship retreats
Fold your wings and live again

Let the angel sing - the strongest ship retreats
Fold your wings and live again
