## Low Tide And Hospital Bed

## **The Anniversary**

How are the nights there? How do you sleep? Cause I figured you'd have me inside a week

The tide is on fire - The minnows all breathe And my timing is all wrong - throwing fits so mean Let the angel sing - the strongest ship retreats Fold your wings and live again

Let the angel sing - the strongest ship retreats Fold your wings and live again

Let the angel sing - the strongest ship retreats Fold your wings and live again
