

I Am What I am

The Answer

I don't care what you think of me
I don't care what you see
Take a look at yourself sometime
That's where your focus should be

This is all that I paid to see
All I ever want to be
(Necessary madness)
Necessary madness
Just enough to set me free

I am what I am
What's your master plan?

Take your misplaced victory
And bury your head in the sand
I don't want what you got for me
What I am is where I stand

This is all that I paid to see
All I ever want to be
(Necessary madness)
Necessary madness
Just enough to set me free

I am what I am
What's your master plan?
Come on down and prove me wrong
Or go back where you belong

I am what I am
What's your master plan?
Come on down and prove me wrong
Or go back where you belong
Back where you belong

I am what I am
What's your master plan?
Come on down and prove me wrong
Or go back where you belong
Back where you belong

(I am what I am
What's your master plan?
Come on down and prove me wrong
Or go back where you belong)
This is all that I paid to see
All I ever want to be
Necessary madness
I am what I am
