

If I Had U

The Answer

If I had you
If you were mine
We'd travel thru
Space and time...

If I had you
And you were on top of me
We would be free...

Just take it slow
Look in my eyes loose control, baby,
I'll make you know
I'm all you need, all you want...

Just take my hand
I'll do the best that I can, baby,
I'm here to drive you crazy, here to drive you crazy...

You and me, only need,
Music, baby,
Some candle light and we're
Set for tonight

I'll pull you close, make you know,
You'll scream for more
It's getting hot, you don't wanna stop,
Forget about your clothes'

If I had you
If you were mine
We'd travel thru
Space and time...

If I had you
And you were on top of me
We would be free
As we're meant to be

Let's take it slow
You're mine and I'm yours, baby,
We both know,
What we need, what we want...

Let my hand take you there
Enjoy every scream, baby,
I'm here to drive you crazy...

If I had you
If you were mine
We'd travel thru
Space and time...

If I had you
And you were on top of me
We would be free
As we're meant to be
