

# Last Days Of Summer

The Answer

Sunshine is fading  
Soon my day is gonna come  
A silent war is raging  
How can I live with what I've done?  
These are the last days  
These are the last  
These are the last days of Summer

I heard a newborn crying  
She got sirens in her head  
Swallow up those demons  
And torture me instead  
Deliver me instead

These are the last days of Summer

These are the last days  
These are the last  
These are the last days of Summer

Dead leaves are falling  
Before my eyes  
Dead leaves are falling  
We've lost our minds  
It's not right  
It's not right  
Dead leaves  
Dead leaves  
Falling

Do you remember?  
Do you remember?

Do you remember  
Summer washing you away?  
All innocence is broken  
Those memories are dead

These are the last days  
These are the last  
These are the last days of Summer  
The last days that I'll ever see  
The last days of, oh  
The last days of Summer
