You don't know, you can't know just who I am

You say you gotta name and a number  
Well, we're gonna find you anyway

Because you're too far gone with the money you've spent  
Take a stab at a war, you're working for the government  
Too far gone, you're too far gone, I say you're too far gone  
But you keep pushing harder and harder

You take the free from the people, I guess you got the human disease  
You stand tall you look strong but you're taking the free out of me  
Yeah, out of me and it's not exactly hard to see

You don't know, you can't know just who I am  
You don't know, you can't know just who I am

You're too far gone, you're too far gone, I say you're too far gone  
But you keep pushing harder and harder, yeah
