Sets Me Free

The Apache Relay

Started, we started in disconnect
I don't know where you're coming from
And when did you sink in
You're so contagious
I, no I don't wanna find a cure

It sets me free
Like I have never known
It sets me free
Oh yeah
It sets me free
Well I have lost control
It sets me free
Oh yeah

Moments, these minutes all feel like hours
I, I wish you would walk through my door
Anticipation, my mind is racing
I, no I don't wanna find a cure

It sets me free
Like I have never known
It sets me free
Oh yeah
It sets me free
Well I have lost control
It sets me free
Oh yeah

Please don't, oh please don't ever go
Cause I have, well I've been on my own for far too long
Oh please stay for my soul
Oh please stay, oh please stay so you can know
Just what you do to me

It sets me free
Like I have never known
It sets me free
Oh yeah
It sets me free
Well I have lost control
It sets me free
Oh yeah
