

# Always Have Paris

The Apers

I don't know what to say you, but I guess that's alright  
I haven't felt way since our final Friday night  
I took you to the airport and you got on that plane  
Away from here, away from me, away from all the pain

It's ok, I understand, I would've done the same  
Things did not work out for us, and we are both to blame

But I will always love you with everything I've got  
And I will always be there for you, no matter what  
We will always have Paris, remember that  
Always have Paris

I tried to write you letters but couldn't find the words  
Guess everything I'd write to you would make us both feel worse  
I drove by all the places that remind me of you  
The best of times, the worst of times, the stuff that we went through

I still can't believe that we're an ocean apart  
I'll always have a special place for you here in my heart

But I will always love you with everything I've got  
And I will always be there for you, no matter what  
We will always have Paris, remember that  
Always have Paris

I still can't believe that we're an ocean apart  
I'll always have a special place for you here in my heart

But I will always love you with everything I've got  
And I will always be there for you, no matter what  
We will always have Paris, remember that  
Always have Paris
