

Always Have Paris

The Apers

I don't know what to say you, but I guess that's alright
I haven't felt way since our final Friday night
I took you to the airport and you got on that plane
Away from here, away from me, away from all the pain

It's ok, I understand, I would've done the same
Things did not work out for us, and we are both to blame

But I will always love you with everything I've got
And I will always be there for you, no matter what
We will always have Paris, remember that
Always have Paris

I tried to write you letters but couldn't find the words
Guess everything I'd write to you would make us both feel worse
I drove by all the places that remind me of you
The best of times, the worst of times, the stuff that we went t
hrough

I still can't believe that we're an ocean apart
I'll always have a special place for you here in my heart

But I will always love you with everything I've got
And I will always be there for you, no matter what
We will always have Paris, remember that
Always have Paris

I still can't believe that we're an ocean apart
I'll always have a special place for you here in my heart

But I will always love you with everything I've got
And I will always be there for you, no matter what
We will always have Paris, remember that
Always have Paris
