

## Eyes Open Wide

The Apers

Well I try to be a little more  
Than all the other guys you've had before  
I try to make you see make you believe  
That you're better off with a guy like me  
Your eyes are open wide, why can't you see?

I'll give you love and I'll give you joy  
And I'll give you happiness and so much more  
I try to make you see, make you believe  
That you're better off with a guy like me  
Your eyes are open wide, why can't you see?

I try to make you love me  
God knows, I've tried so many times

I love you, it's true, I think about you  
I love you, it's true, my arms wrapped around you  
I love you, it's true, I need to hold you

I'd like to dream about the way  
You and me will end up someday  
I try to make you see, make you believe  
That you're better off with a guy like me  
Your eyes are open wide, why can't you see?
