

Falling Apart

The Apers

Standing all alone in the dark
falling apart
Standing all alone in the dark
falling apart

This was all she said now
Before she turned her head now
Guess it's over. Guess it's over
Get over it

I just lost my head now
Never felt so said no
Now it's over. Now it's over
Get over it

Standing all alone in the dark
falling apart
Standing all alone in the dark
falling apart

Another minute passed by
Before I fully realized
Guess it's over. Guess it's over
Get over it

As I stood there all alone
Why she left I didn't know
Now it's over. Now it's over
Get over it

Standing all alone in the dark
falling apart
Standing all alone in the dark
falling apart
Standing all alone in the dark
falling apart...
