

# Hello Dearest Love

The Appleseed Cast

Welcome home  
Her eyes know  
Mistakes you've made  
The plans you laid

Your love, it means so much  
Simple ring, your fingers touch  
And break away and break away

Your smile faints, light shines through  
Plan it truth, it is too soon to ignore  
To ignore

But she's not here  
Standing in clear  
In front of you  
It's just a dream

Times up, she's gone away  
You had your time, but it won't stay  
Not this time and not this time

And soon enough, you'll kill them all  
Every chance to break your fall  
You're giving in, you're giving in

But she's the one  
Bright as the sun  
Stops you there  
Right on the stairs

And falling back  
When stars are black  
And stripes on fire  
And stripes on fire
