

# Demolition Rickshaw!

The Aquabats

There's too many people living in my house  
I can see them, I don't know them  
And I want them out!  
There's too much emphasis on dirt  
Who did what for how long?  
And where does it hurt?  
I think  
Oh No! How did it get so far?  
Do you! Have to walk with a lean?  
Oh no! I need a vacation from waving checkered flags at the Malibu Grand Prix  
What are we doing here?  
What are we doing now?  
What are we doing here?  
I know!  
Line up the rickshaws  
Right down the derby line  
Let's all crash into each other  
It's demolition time  
Right now, Right Now!  
There's too many choices staring back at me  
I can see them  
I don't know them,  
Now I must leave!  
There's too much pressure on my seams  
Just drink a little water chemicals attack blood streams  
Come on, come on, come on, everybody  
Come on, come on, come on, Demolition Rickshaw
