

# Meltdown!

The Aquabats

I am just a man  
I do the things i can  
there is capacity  
for i am a human  
cars and radios  
television codes  
noisy animals  
jam transitions  
i will go to work  
just like captain Kirk  
i will hear the noise  
the standard feedback  
i will smell Chee-tos  
that is how it goes  
and then the nachos in my head explode, yeah!  
And then he had a meltdown  
he had a meltdown  
he didn't wanna  
he didn't wanna  
have a meltdown  
but he had one  
and then he had a meltdown  
he had a meltdown  
well he was tryin'  
really really tryin  
not to have one  
but he had one!  
I cannot control  
I am overload  
so many of these things  
can control me  
there is Murphy's law  
there is Newton's law  
things go wrong  
and then they  
then fall down on me  
why so many things  
change around me?  
What? my comfort zone  
has been invaded  
it has come to this  
and no i must  
and now i must surgically remove myself!  
And then he had a meltdown  
he had a meltdown  
he didn't wanna  
he didn't wanna  
have a meltdown  
but he had one  
and then he had a meltdown  
he had a meltdown  
well he was tryin'  
really really tryin  
not to have one  
but he had one!  
I suggest You Double The Intensity!  
And then he had a meltdown

he had a meltdown  
he didn't wanna  
he didn't wanna  
have a meltdown  
but he had one  
and then he had a meltdown  
he had a meltdown  
well he was tryin'  
really really tryin  
not to have one  
but he had one!  
And then he had a meltdown  
he had a meltdown  
he didn't wanna  
he didn't wanna  
have a meltdown  
but he had one  
and then he had a meltdown  
he had a meltdown  
well he was tryin'  
really really tryin  
not to have one
