

Sinus Infection

The Aquadolls

You were a dream but not a good one
you're crawling through my head
unpleasant nightmares, shadows crawling
underneath my bed but
I'm gonna rest up your spirit best be
gone when I get back home

Out of my head
I don't care what you said
you sit here all day
and then you blow me away
out of my head
I don't care what you said
you sit here all day
and then you blow me away

Your voice of reason turned to treason
evil has come to play!
dusty dirty, ooey gooey
I don't want you to stay
please get out get down go back to hell
that's where you belong

Out of my head
I don't care what you said
you sit here all day
and then you blow me away
out of my head
I don't care what you said
you sit here all day
and then you blow me away

Out of my head
I don't care what you said
you sit here all day
and then you blow me away
out of my head
I don't care what you said
you sit here all day
and then you blow me away
